

Takeups

- Telescop® brand Takeups
- Custom Fabricated Specialty take-ups

Conveyor Rollers

- 1-3/8" - 5" diameter
- Drive grooves
- Sprocketed - CDLR
- Carbon and stainless steel, aluminum, ABS

Tapered Rollers & Turn Pulleys

- AirForm® and Machined straight and trap crown
- TIR as low as .001"
- 1" - 12" diameter, 106" length

Conveyor Pulleys

- AirForm® and Machined straight and trap crown
- TIR as low as .001"
- 1" - 12" diameter, 106" length

Exclusive TuffCote® Lagging

- High quality urethane at rubber prices

Pulleys for general conveying, airport baggage, United Parcel Service, United Postal Service, Print and Web-Feed applications

Custom Fabricating

CNC Machining - Vertical and Horizontal Centers

Our Commitment to Superior Performance

Processes, Services, & Capabilities

CNC Machining

Turning capacity up to 3000 mm (118 in) in length
Turning capacity up to 15 inches in diameter
Turning capacity incorporates live toolings for extra precision and reduced set ups
Keys and splines produced on lathe
Milling capacity up to 1800 mm (72 in) in length
Bar feed capacity up to 3.50 inches in diameter
Hydraulic steady rest capability to 10 inches in diameter
CNC sawing to 20 inch diameter
Broaching - keyways

Welding

Mig
Automatic cylindrical welding to 10 inch diameter and 1800 mm (72 in) in length
Tig
Plasma cutting
Aluminum, alloy steels, and stainless steel

Other Services

Proprietary Airform® CNC metal spinning

- Tubing capacity (.250 wall) maximum
- 2000 mm (80 inches) length
- Up to 10 inches in diameter

Proprietary TuffCote® urethane coating of any substrate using CNC controls
Media blasting
Chrome plating
Zinc plating
Heat treating
Powder coatings
Straightening
Plasma cutting
Grinding
Metal forming

Material Offerings

Carbon steel
Stainless steel
Aluminum
Plastics
Steel alloy (4140, 1144, 8620, etc)
Brass/Copper alloys
Turned, ground, and polished stocks
